

Mahjong Tarot Astrologer Portal

User Guide — v1.0

For Bill Hajdu (Astrologer) and Dave Hajdu (Operator)

Date: 2026-05-20

Live URL: mahjongtarot.com/portal

This guide walks through every screen in the portal. Real screenshots from the live site, captioned with what to do. Bill — Part 2 is yours. Dave — read everything, but Part 3 is where the admin tools live. Questions go to yon@edge8.co.

Welcome

The portal is your private workspace on mahjongtarot.com. It lives behind your sign-in and lets you:

- See every session you have on the calendar (past and future)
- Keep a record of every client you've read for, with their birth info and contact details
- After a call, write up a polished report and email it to the client with one click
- (For Dave + Yon) Track which clients haven't subscribed yet and follow up

This guide walks through every screen. Each section has a screenshot showing what you'll see.

If you're stuck at any point, email Yon at yon@edge8.co.

Part 1 — Getting Started (everyone)

1.1 Signing in

Go to mahjongtarot.com/sign-in.

Enter your email and password. Your account is already set up — Bill uses firepig01@gmail.com, Dave uses dhajdu@gmail.com.

Sign-in page

After you sign in, the site knows your role and sends you to the right place:

- **Bill** (Astrologer) → lands on /portal (your sessions dashboard)
- **Dave** (Admin) → lands on /portal as well, with an extra "Conversions" link in the navigation
- Regular site members → land on /dashboard (the public member area, separate from the portal)

You only see the portal when you sign in. Customers visiting the public site never see it.

1.2 Signing out

Click your name in the top-right corner of any portal page and choose **Sign out**.

Part 2 — For Bill (Practitioner)

This is the part of the portal you'll use every day. It's organized around the way you actually work: see who's coming up, take the call, write the report, send it.

2.1 Your sessions dashboard

When you sign in, you land on the **Sessions** page at /portal. This is your home base.

Sessions dashboard — List view, Upcoming tab

The page has two tabs and two view modes:

Tabs:

- **Upcoming** (default) — every session you have coming up, in chronological order
- **Past** — every session you've already had, most recent first

View modes:

- **List** (default) — sessions grouped by week (This week / Next week / Week of ...)

- Toggle freely between them. Try the **Calendar** view when you want to see your month at a glance:

Clients list page

The list shows the client's name, contact info, birthday, and subscription status. Use the **search box** at the top to filter by name, email, or phone.

Click **+ New client** at the top-right to add a new person to the list.

2.4 Adding a new client

The **New client** form captures everything you need before the first reading.

The screenshot shows the 'Add a client' form in the Mahjong Tarot Portal. The header includes the portal name and navigation links for Sessions, Clients, Bill, and Sign out. The form is titled 'Add a client' and includes a note: 'Manual entry for now. Auto-creation from bookings comes later.' The form fields are: FULL NAME (text input), EMAIL (text input), PHONE (text input), BIRTHDAY (date picker with format dd/mm/yyyy), BIRTH TIME (time picker with format --:--:--), BIRTH PLACE (text input with placeholder 'City, country'), GENDER (dropdown menu), and NOTES (text area with placeholder 'Anything to remember about this client'). At the bottom right are 'Cancel' and 'Create client' buttons.

New client form

Required fields:

- Full name

Strongly recommended for readings:

- Email — needed to send them their report later
- Birthday, birth time, birth place — needed for chart-based readings (Bazi, Purple Star, etc.)

Optional:

- Phone, gender, notes

Click **Save** when you're done. You'll be taken to that client's profile.

2.5 The client profile

Each client has a profile page at `/portal/clients/` showing everything you know about them.

Wed, May 6, 2026, 4:08 AM	Completed	—	Initial career transition conversation. Move to NYC. Open report
Sat, May 23, 2026, 4:08 AM	Scheduled	—	Career transition follow-up. Pull her current Big Limit and look at the next 10-year decade. Open report

Client profile

The profile has four sections:

1. **Header** — name, subscription icon + label
2. **Contact + birth info** — click **Edit** at the top-right to change anything
3. **Subscription panel** — see when their subscription started/ended, and use the buttons to mark them subscribed/lapsed/cancelled if needed
4. **Sessions table** — every session you've had with this client, with an **Open report** button on each row

2.6 Scheduling a session

There are two ways to schedule:

From the client profile: Click **+ Schedule session** at the top of the Sessions section. The form opens with that client pre-filled.

From the Clients page: Open the client first, then schedule from their profile.

The screenshot shows the 'Mahjong Tarot Portal' interface. At the top, there are navigation links for 'Sessions', 'Clients', and 'Bill', along with a 'Sign out' button. The main heading is 'Schedule a session'. Below this, there's a 'CLIENT' dropdown menu with 'Sarah Chen' selected. Under the 'WHEN' section, the date and time are set to '20/05/2026, 03:00 PM' with a calendar icon, and the 'DURATION (MIN)' is set to '60'. A 'PREP NOTES' text area contains the placeholder text 'What to look at, questions the client raised, themes to revisit'. At the bottom right, there are two buttons: 'Cancel' and 'Schedule session'.

Schedule session form

Pick a date and time (it defaults to the next hour). Set the duration (default 60 minutes). Add any **prep notes** — things you want to remember before walking into the call.

Click **Schedule**. The session now appears on your Sessions dashboard.

2.7 The post-session workflow (the most important part)

After every reading, you'll do three things in the portal:

1. **Paste the transcript** (from Zoom AI Companion, Krisp, or however you record)
2. **Write or paste the polished report** (using your Claude.ai Project as a draft helper)
3. **Send the report by email** with one click

Here's how each step works.

Step 1 — Open the session's report page

From the client's profile, find the session in the Sessions table and click **Open report**.

Report page — empty state

The page has three sections:

1. **Session context** (top) — read-only info about who, when, how long
2. **Transcript & summary** — where you paste raw transcript + optional summary

3. **Report** — where you paste the polished write-up that goes to the client

Step 2 — Paste the transcript

After your Zoom (or other) call, your recording service should give you:

- A **transcript** (the raw text of what was said)
- A **summary** (a few bullet points capturing the call) — optional but helpful

Paste them into the two textareas. Click **Save transcript & summary**.

The screenshot shows the 'Mahjong Tarot Portal' interface. At the top, there are navigation links: 'Sessions', 'Clients', 'Bill', and 'Sign out'. Below the header, there's a section for 'session record, so you can revise them at any time.' This section contains two textareas: 'TRANSCRIPT' and 'SUMMARY (OPTIONAL)'. The transcript text is as follows: Bill: So, Marcus, thanks for making the time. Last we spoke you were sitting on the fence about the pivot – has anything shifted since? Marcus: Yeah, a lot. The investor conversation went sideways, and I think it forced my hand. I've been doing a lot of journaling about what I actually want out of the next chapter. Bill: Good. Tell me what came up. Marcus: Mostly that the old business doesn't feel like mine anymore. I built it ten years ago, and the version of me that built it isn't around anymore. Bill: I want to look at your current Big Limit. You're in the Career palace right now, and there's a Hua Lu coming in from the Spouse palace – that's a pretty clear signal of partnership-driven growth in your work. Have you talked to anyone about a co-founder arrangement? Below the transcript is a red button labeled 'Save transcript & summary'. The 'SUMMARY (OPTIONAL)' section contains the following text: Marcus is in a clear transition. Investor conversation collapsed which paradoxically clarified that the old business no longer fits. Current Big Limit puts Career palace with a Hua Lu signal from Spouse – interpretation: partnership-driven growth is on the rise. Old design lead has reached out about partnering; encouraged him to explore without forcing it. Next 12 months look constructive for foundational partnership work. Below the summary is a red button labeled 'Save transcript & summary'. Below the transcript and summary sections is a 'Report' section. It contains a text area for the title, which is currently 'Marcus — partnership and the next chapter'. Below the title is a text area for the body (markdown), which is currently empty.

Transcript pasted and saved

You can come back and edit these any time. They live on the session record.

Step 3 — Write the polished report

Open your **Mahjong Tarot Report Writer** Project in Claude.ai (your Max-plan subscription). Paste the transcript or summary in. Claude will produce a polished, voice-matched report. Copy it back.

Paste it into the **Body (markdown)** textarea on the report page. Add a title if you want (otherwise the system uses "{Client name}'s reading"). Click **Save report**.

Report body pasted and saved

Step 4 — Send to the client

When the report is ready, click **Send to client** at the bottom of the page.

Marcus — partnership and the next chapter

BODY (MARKDOWN)

Where you stand

The collapse of the investor conversation looks like a setback. From the chart's point of view it's a clearing. The old structure was already loose around you – the universe just made it official.

Your current Big Limit puts your Career palace at the front of the stage. The strongest signal coming in is a **Hua Lu from the Spouse palace into the Career palace** – read that as *partnership-driven growth*. The success that's available to you in the next decade comes through *someone else* in a structural sense, not solo founder mode.

What the next twelve months look like

- **Now through autumn:** exploratory. The right people start surfacing – your old design lead is already one of them. Don't commit; collect.
- **Winter:** consolidation. By December the shape of the partnership should be visible enough that you can sketch terms.
- **Spring 2027:** the window for committing capital. The Tian Ma star activates in your Wealth palace – that's the green light for movement.

Three things to hold

1. **Don't solo-found this one.** The chart is loud about partnership. Going alone would work, but it'd cost you health.
2. **Listen to people who reach out unprompted.** They're the chart speaking.
3. **Get the terms in writing before the handshake.** Hua Lu is generous but it doesn't protect against bad paperwork.

BODY (MARKDOWN)

Where you stand

The move to New York is not the change. It's the *result* of a change you've already made internally. The chart catches up to where you've quietly been for about eighteen months.

Your current Big Limit emphasises the Travel palace – that's the geographic shift. But the more interesting signal is the *Hua Quan* in your Career palace, which is about *authority*. You're moving from being good at your work to being known for it.

A year out

- The first three months in NYC will feel like a regression. That's the chart's honesty – you're repotting yourself.
- By autumn the new roots show. Expect a senior offer or visibility you didn't go looking for.
- Through next spring the work itself doesn't change much, but how people *see* you does.

Recommendations

1. Say yes to introductions for the first six weeks even if they feel low-yield.
2. Don't take a role that locks your title for more than a year – your trajectory is steeper than current titles describe.
3. Reserve some space for a long-form piece of work that's yours – a talk, a course, something with your name on it.

Let's schedule a check-in in twelve weeks.

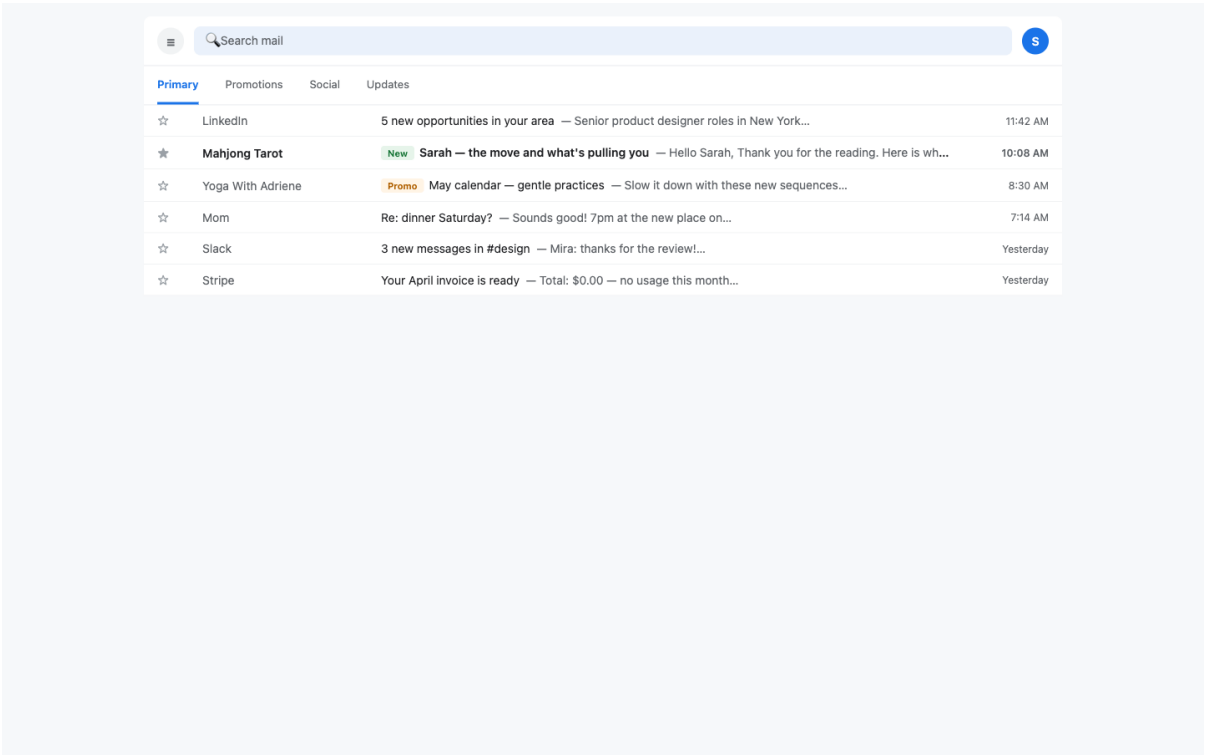

Save report

Report status: Sent

The client receives an email like this:

Email received in inbox

When they open it, they see your polished report followed by an **"Explore The Mahjong Mirror →"** button that takes them to the Mirror page on mahjongtarot.com — your conversion surface.

Email opened, showing the CTA

You can resend the report later if you need to — click the **Send again** button. (You'll get a confirmation prompt.)

2.8 What if something goes wrong?

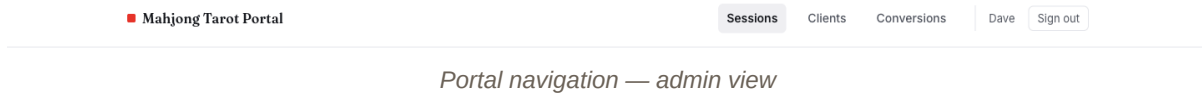

- **The page is stuck on Loading...** — refresh the page (Cmd+R / Ctrl+R). If still stuck, sign out and back in.
- **Save took >15 seconds** — you'll see a timeout error. Refresh and try again.
- **Client didn't receive the email** — check the report's "Sent to" field on /portal/reports/. If the address is wrong, edit the client profile and resend.
- **Anything else** — email Yon at yon@edge8.co with a screenshot.

Part 3 — For Dave (Operator)

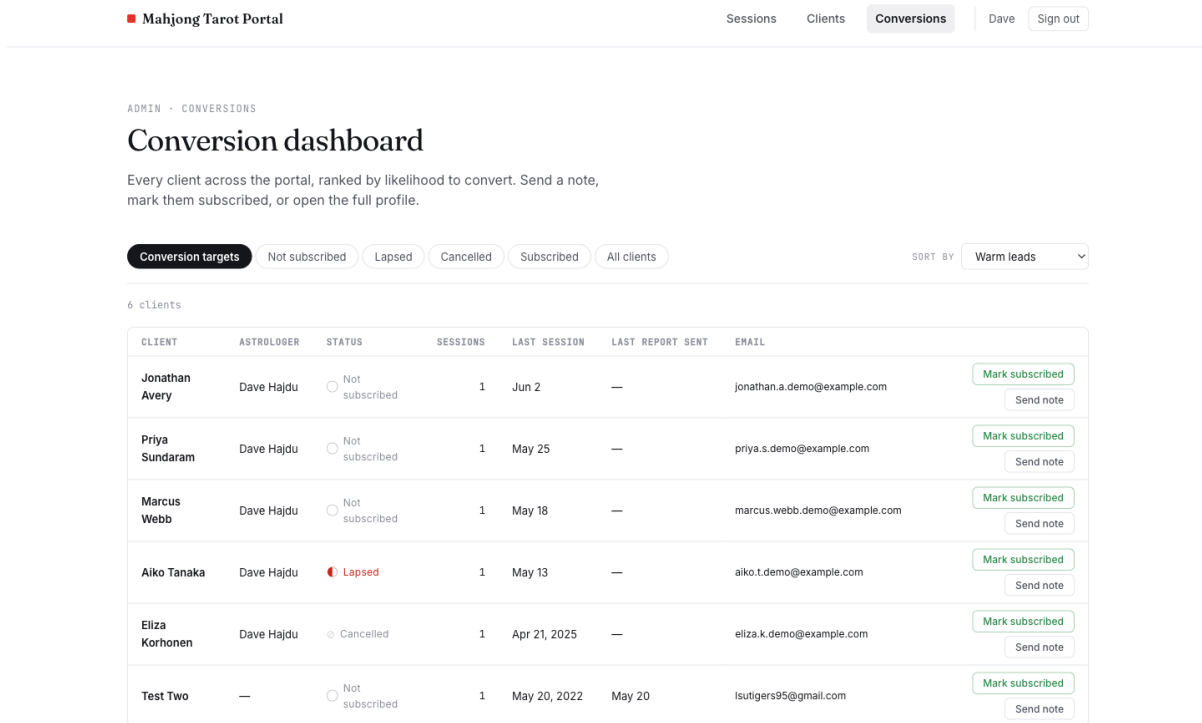

You can do everything Bill can — that's all of Part 2. You also have an extra page focused on conversion.

3.1 The Conversions dashboard

You'll see an extra **Conversions** link in the portal navigation. Bill doesn't see this — it's admin-only.

Click it to open `/portal/admin/conversions`:

Conversions dashboard

The page shows every client across the system (not just yours) — every person Bill has ever read for, regardless of who scheduled it.

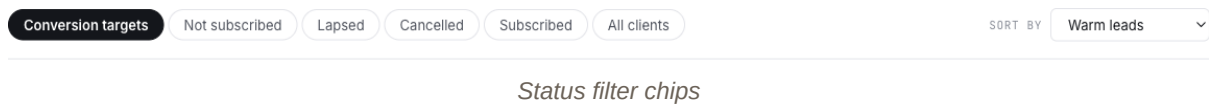

Columns:

- Client name — click to open the full profile
- Astrologer — who they're working with (currently always Bill)

- Status — subscription state with icon
- Sessions — how many they've had
- Last session — when their most recent reading was
- Last report sent — when Bill last emailed them
- Email — for outreach
- Actions

3.2 Filters and sort

The filter chips at the top control what shows:

- **Conversion targets** (default) — Not subscribed + Lapsed + Cancelled. The people most worth following up with.
- **Not subscribed, Lapsed, Cancelled** — drill down to a specific status
- **Subscribed** — see existing subscribers (useful to confirm a recent conversion)
- **All clients** — no filter

Sort options:

- **Warm leads** (default) — non-subscribed clients with a recent session, ordered by recency. These are your highest-probability conversions.
- **Recent activity** — pure recency sort regardless of status
- **A → Z** — alphabetical

3.3 Marking someone as subscribed

When someone subscribes (currently a manual process — you'll add Stripe later), find them in the table and click **Mark subscribed**.

CLIENT	ASTROLOGER	STATUS	SESSIONS	LAST SESSION	LAST REPORT SENT	EMAIL	
Jonathan Avery	Dave Hajdu	☐ Not subscribed	1	Jun 2	—	jonathan.a.demo@example.com	Mark subscribed Send note
Priya Sundaram	Dave Hajdu	☐ Not subscribed	1	May 25	—	priya.s.demo@example.com	Mark subscribed Send note
Marcus Webb	Dave Hajdu	☐ Not subscribed	1	May 18	—	marcus.webb.demo@example.com	Mark subscribed Send note

Eliza Korhonen	Dave Hajdu	☒ Cancelled	1	Apr 21, 2025	—	eliza.k.demo@example.com	Mark subscribed Send note
Test Two	—	☐ Not subscribed	1	May 20, 2022	May 20	Isutigers95@gmail.com	Mark subscribed Send note

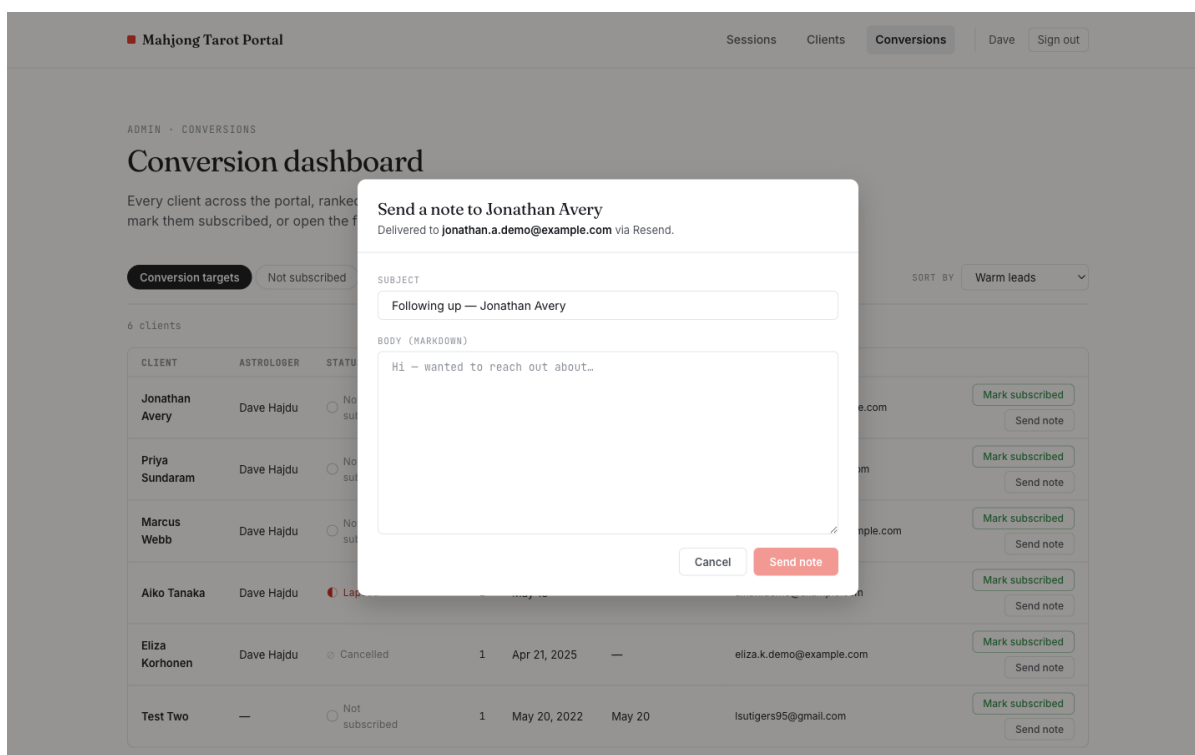

Mark subscribed button

The row updates instantly:

- The status icon flips to green ☒ Subscribed
- If the **Warm leads** sort is on, the row drops out of view (since they're no longer a target)
- Bill sees the new status next to that client's name everywhere in his portal

3.4 Sending a follow-up note

To reach out to a client without using the report flow (e.g. "Hi, want to schedule another reading?"), click **Send note** on their row.

Send note modal

The modal pre-fills a subject like "Following up — Jane Doe". Write a short body in markdown. Click **Send note**. The client receives an email branded as Mahjong Tarot, with a reply-to address that lands in Bill's inbox.

This is useful for nudges, schedule reminders, or anything that doesn't warrant a full report.

3.5 The role system

Three roles exist in the database:

Role	What they see
member	Regular site users. See /dashboard and public content. No portal access.
astrologer	Bill. Lands in /portal after sign-in. Full portal access. No /admin or /portal/admin/* access.
admin	Dave + Yon. Everything Bill has, plus /admin (legacy inquiry dashboard) and /portal/admin/conversions.

Roles are set on the profiles table in Supabase. New signups default to member. Promoting someone is a single SQL update — ask Yon.

3.6 When to escalate to Yon

You can handle most things yourself. Loop Yon in when:

- A user can't sign in (their account isn't promoted, or password reset issue)
- The portal returns errors you don't recognize
- You want to change the layout, copy, or add a feature
- Stripe / payment integration questions (coming in v2)
- Email isn't arriving (Resend issue)

Glossary

- **Astrologer** — the practitioner role. Bill.
- **Admin** — the operator role. Dave + Yon.
- **Session** — a scheduled reading on the calendar.
- **Report** — the written write-up sent to the client after a session. One per session.
- **The Mahjong Mirror** — Bill's framework / book. The conversion CTA in every report email links here.
- **Subscription** — currently a manual status on the client record. Stripe integration deferred to v2.

What's not built yet (coming soon)

- **Stripe Payment Link** for self-serve subscriptions — for now Dave marks subscribed manually
- **Subscribe landing page** at /continue or /subscribe — coming in v2
- **Auto-pull transcripts** from Zoom / Krisp / Otter — manual paste for now
- **AI-drafted reports inside the portal** — use your Claude.ai Project for now
- **Client-facing report archive** — clients receive reports by email only; no in-site reader yet
- **PDF export of reports**

If you want any of these, tell Yon.
